WHAT WE DO

We have been around for a year or so designing workshops that we know you will enjoy, we have worked with a wide range of young people from primary to 6th form, from groups of 3 to 250.

Our workshops are supported by professional, CRBd, Devon Youth Service workers, Youth Music funding and Music Leader support and delivered by us; teenagers.

You organise your youth group, get in touch to let us know what you want, and leave the rest to us.

We have 2 recording studios, a mobile digital recording set up, both analogue and digital DJ decks, percussion, acoustic guitars and instruments.

In other words, we have everything we need to make sure your group has a great time; we can even leave you with a CD of their work.

Workshop Services Questions

Your group don't need to be musical for most of our workshops, we enjoy offering young people their first experience of how much fun music can be in an informal environment. the best place to start is with a chat or an email to one of our Collective members, musicians or youth workers.

Recording Services Questions

We get a lot of bands ask us if they are ready - we think that you need to be able to sing/play the whole song from start to finish without messing up. We offer a very supportive and patient studio and we are trained to work with young people, who are using new skills and pushing themselves, if in any doubt, phone ahead and discuss first - thanks

To help the session run smoothly, before we come out to your youth group, we may ask you some of these questions

- ☀ What sort of songs would the Young People like to jam too?
- ☀ What skills and talents do the Young People already hold?
- ☀ Get a feel for the number of participants expected.
- ☀ Pre-Arrange what space you would like us to occupy. (small back room, main Hall)
- ☀ Direction and post code of venue.
- ☀ Age range of group to work with.
- ☀ Are their likely to any Young People with special needs or learning difficulties so we can respond accordingly.
- ☀ Does the venues have an internet source and sufficient power supply
